DETAILED ACTION

Upon further consideration, Examiner hereby withdraws the finality dated January 2, 2002. Based on the entered amendment filed on September 20, 2001, the following restriction requirement is deemed necessary. Any delay in examination of this application is inadvertent.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 16 and 18-21, drawn to an injection molding apparatus, classified in class 29, subclass 611.
 - II. Claims 23-26, drawn to an injection molding apparatus, classified in class 29, subclass 611.
 - III. Claims 52-58, drawn to an injection molding apparatus, classified in class 29, subclass 611.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I, Group II and Group III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of Group I could be employed without metalurgically bonding the collar portion to inner portion as in Group II and using a non-removal type tip insert as in Group III. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Due to the complex nature of the election of species requirement, no telephone call was made to the attorney of record to request an oral election to the above requirement.

Conclusion

5. **Please provide reference numerals (either in parentheses next to the claimed limitation or in a table format with one column listing the claimed limitation and another column listing corresponding reference numerals in the remark section of the response to the Office Action) to all the claimed limitations as well as support in the disclosure for better clarity. Applicants are duly reminded that a full and proper response to this Office Action that includes any amendment to the claims and specification of the application as originally filed requires that the applicant point out the support for any amendment made to the disclosure, including the claims. See 37 CFR 1.111 and MPEP 2163.06.**
